

CoBGRTE NBRC Doctoral Scholarship Awards

The CoBGRTE Board of Directors is pleased to invite applications for two, NBRC supported, \$10,000 scholarships. The intended recipient is a CoBGRTE member and a registered respiratory therapist pursuing a doctoral degree. The application criteria include being enrolled in a doctoral program, letter of support from the department chair or a committee chair, and submission of a 'vision' paper that describes: 1) how they plan to use their degree to advance their practice/profession/patient care, or 2) how the degree and subsequent work will close a particular gap in the existing research, or 3) why they are pursuing a doctoral education and how they plan to use it.

Applicants must submit their vision paper, curriculum vitae, and letter of support to the CoBGRTE scholarship committee chair by 1/31/2022. Award recipients will be announced in February 2022. The CoBGRTE Board of Directors thanks the NBRC for their financial support of this initiative.
