

**Job Description:** The Cardiopulmonary Science Program is seeking two (2) full-time tenure/clinical track faculty positions at the Assistant/Associate Professor level.

**Director of Clinical Education** – The responsibilities for this position include providing clinical direction of program fulfilling the requirements for accreditation, assisting with program planning and curriculum development, and providing didactic, laboratory, and clinical instruction. This position also includes student recruitment, advisement and counseling, participation in service, research, and scholarly activities.

**Assistant/Associate Professor** – The responsibilities for this position include providing didactic, laboratory, and clinical instruction for the Cardiopulmonary Science Program and Allied Health Science courses. Participation in service, research, and scholarly activities is also required.

Both positions have opportunities for teaching in the Allied Health Master's Degree Program.

**Minimum Qualifications:**

- Master's degree (doctorate preferred)
- Four (4) years recent experience as a Registered Respiratory Therapist, of which at least two (2) years must include clinical respiratory care.
- Minimum of 2 years' experience teaching in an accredited program either as an appointed faculty member or as a clinical preceptor.
- Eligibility for Tennessee licensure
