

Lecturer, Respiratory Therapy Programs
Department of Applied Physiology, Health, and Clinical Sciences

Position: Full-time, 9-month Lecturer, Respiratory Therapy Programs, Department of Applied Physiology, Health, and Clinical Sciences starting August 2023.

Responsibilities: The position is responsible for advising and teaching specialized undergraduate courses, with some graduate instruction possible; and may serve as practicum coordinator within respiratory care programs. The successful candidate will provide professional service and contribute to the University's Diversity Plan. The successful candidate for this position will engage in high-quality online teaching, departmental governance, and service activities.

Required Qualifications: UNC Charlotte gives primary consideration to the earned masters and/or terminal degree in the teaching discipline or a related discipline. Clinical experience as either a registered respiratory therapist (RRT) or physician is required. An active respiratory care practitioner license or eligible to obtain a license in North Carolina is required. Experience teaching in an academic respiratory therapy program or a combination of equivalent professional experiences is required.

Preferred Qualifications: Doctoral degree in health science, education, or a related discipline from a regionally accredited university, or extensive practical experience in the mutually agreed upon realms of responsibility. Preferred qualifications include at least two years of college teaching experience in respiratory therapy. Advanced professional credentials/certifications (NPS, ACCS, RPFT, RPSGT, AE-C, etc) are preferred. Experience with distance education instruction is preferred but not required.

Highlights of the Position: The respiratory therapy degree advancement programs at UNC Charlotte are among only 16 programs with CoARC accreditation status, with the MSRC program being one of only two in the country. We offer an AS to MSRC option that allows students with an associate degree in respiratory therapy to complete the BSRT and MSRC requirements in three years 100% online. The program faculty work collaboratively to create and offer dynamic programs to help students achieve their professional goals and meet the needs of the profession.

Required Documents:

- 1) Current resume or curriculum vitae
- 2) Cover letter / letter of interest
- 3) Unofficial transcripts
- 4) Contact information for three references
- 5) Teaching philosophy: please include highlights of your beliefs about effective and engaging teaching and learning, provide examples to illustrate your current practices, and how you will implement those practices in the context of respiratory therapy education, including how you may incorporate a commitment to diversity (not to exceed two single-spaced pages).

Lecturer, Respiratory Therapy Programs
Department of Applied Physiology, Health, and Clinical Sciences

Campus Position Requirements: The successful candidate is required to reside in North Carolina and regularly engage in teaching, service, and collaboration.

Campus Interview Requirements: The University of North Carolina at Charlotte is currently operating in-person at full capacity, so selected finalists should expect to travel to campus for an in-person interview and to follow University safety and social-distancing guidelines while on campus. Charlotte's policies related to COVID-19 are informed by the recommendations of experts from the Centers for Disease Control, the American College Health Association, OSHA, and local and state public health officials.

Questions: To inquire confidentially about the position, please contact , Search Dustin Smith Search Committee Chair, at dsmit423@uncc.edu.

Salary: Salary will be competitive and commensurate with experience.
