

**Faculty Position (Tenure-track)**  
**Respiratory Care Program**  
**School of Exercise and Rehabilitation Sciences**  
**The University of Toledo**  
**Toledo, Ohio**

**Position Description:** The University of Toledo is seeking a faculty member for the Respiratory Care Program. Depending upon experience and qualifications, this individual will either assume the position of Program Director or faculty member. Along with other Program faculty, the individual is responsible for achieving Program objectives, goals, and outcomes required for continued CoARC accreditation.

**Rank:** Assistant Professor (Associate Professor may be considered)

**Term:** Nine-month tenure-track

**Salary:** Commensurate with qualifications and experience

**Starting Date:** August 2020

**Qualifications (required):**

- ◆ RRT credential, Ohio RCP License (or eligible), 4 years of experience as a RRT with at least 2 years in clinical respiratory care
- ◆ Terminal degree required (PhD, EdD, DO, MD, PharmD) or all but dissertation (ABD) but degree must be completed by time of hire.

**Qualifications (preferred):**

- ◆ Demonstrated record of research publication and be able to establish a research program
- ◆ Record of involvement in either internally and/or externally funded grants
- ◆ Minimum 2 years teaching experience in a CoARC approved Respiratory Care Program

**Responsibilities:**

- ◆ Teach courses within the curriculum of the Respiratory Care Program
- ◆ Carry out administrative duties for the Program as assigned by Chair of the School of Exercise and Rehabilitation Sciences
- ◆ Participate in undergraduate and graduate courses within area of specialization
- ◆ Pursue external grant funding
- ◆ Establish an independent/collaborative research program resulting in presentations at the national level and publications in refereed journals.

Research areas of specialization within the Program include High Fidelity Simulation and Interprofessional Education.

Other program offerings in the College and University include: Human Performance and Fitness Promotion, Biomechanics, Motor/neuromuscular Control, Athletic Training, Health Promotion, Curriculum Development, Educational Technology, Educational Research and Measurement, Health Care Administration, Public Health, and Human Donation Science. Additional healthcare programs include Medicine, Nursing, Occupational Therapy, Physical Therapy, Physician Assistant, Speech Language Pathology, and Social Work.

The University of Toledo emphasizes interdisciplinary, transformational research.

The Respiratory Care Program at the University of Toledo was founded in 1971 and has a distinguished record of continuing accreditation with excellent student outcomes. The Program produces advanced practice Respiratory Care Practitioners for the local area as well as nationally and internationally. Graduates of the Program have advanced into leadership roles in clinical, academic, and professional positions locally and nationally. Normally 20-25 students graduate yearly with a Bachelor of Science in Respiratory Care. Additional information describing the program can be found at the Program Website: <http://www.utoledo.edu/programs/undergrad/respiratory-care>.

**Application (required items):** 1) Letter of application including teaching philosophy and research statement, 2) Complete *curriculum vitae*, 3) List of individuals willing to submit letters of recommendation.

Applications received by January 10, 2020 will receive full consideration.
