

## UTMB – Respiratory Care Faculty Assistant/Associate Professor Position

The University of Texas Medical Branch (UTMB) in Galveston, Texas is hiring a 12-month tenure or non-tenure track assistant/associate professor for the master's entry level respiratory care program. Position duties include development and delivery of didactic and laboratory courses online and in person. Preference will be given to an individual with current or previous extramural funding support.

UTMB is part of a large academic health science center and the Texas Medical Center, the largest medical center in the U.S. UTMB has a newly opened Health Education Center (HEC) which is currently the largest simulation and collaborative facility in the region. The HEC is a 5 story, state-of-the art, 77-bed simulation facility that is focused on interprofessional education. UTMB is also home of the Galveston National Laboratory and presents unique opportunities for collaborative research. The Respiratory Care program is also able to collaborate with the Translational ICU that is a service center utilizing an ovine model to study translational approaches to the treatment of critical illnesses requiring intensive care.

### Job Qualifications

Master's degree required; doctoral degree preferred. Salary and benefits are extremely competitive and academic rank is dependent upon qualifications. Preferred qualifications include at least 2 years of teaching experience, clinical or research interests. An ideal candidate will have current or recent extramural funding.

Applications will be accepted and reviewed until the position is filled. Qualified applicants should send a letter of application, current CV, and letters of reference to Dr. Jose Rojas, UTMB School of Health Professions, Respiratory Care Department, 301 University Blvd., Galveston, Texas 77555-1146. Phone: (409) 772-5693.
