

Clinical Assistant Professor, Neurodiagnostics and Sleep Science
Department of Kinesiology
College of Health and Human Services

The University of North Carolina at Charlotte, the fastest growing institution in the UNC System accounting for 61 percent of the total System growth over the past seven years, seeks a Clinical Assistant Professor for its Neurodiagnostics and Sleep Science program. UNC Charlotte, North Carolina's urban research university (www.uncc.edu), has an enrollment of more than 29,000 students including 5,400 graduate students enrolled in 64 master's and 23 doctoral programs, and a faculty and staff of over 3,000.

Charlotte is a thriving and vibrant metropolitan center, with a 10-county metropolitan statistical area population approximating 2.3 million. It is a major banking center, and boasts two major hospital systems one of which is the nation's 3rd largest public nonprofit healthcare system. The region offers a diverse population, an enviable array of artistic and cultural offerings, thriving professional sports franchises, and an excellent year-round climate. This nine month position will begin August, 2018.

The Department: The Department of Kinesiology (<http://kinesiology.uncc.edu>) is a dynamic academic unit with an interdisciplinary focus housed within the College of Health and Human Services. Our programs include: B.S. in Exercise Science (CAAHEP-accredited); M.S. in Kinesiology (CAAHEP-accredited); B.S. in Athletic Training (CAATE-accredited); B.S. in Respiratory Therapy (CoARC Provisional Accreditation) and M.S. in Respiratory Care (CoARC Provisional Accreditation); and B.S. in NDSS (CAAHEP-accredited). The NDSS program is offered by UNC Charlotte with collaborative coursework shared with The University of North Carolina at Chapel Hill (<https://www.med.unc.edu/ahs/ndss>). The Department participates in the Health Services Research doctoral program and an interdisciplinary PhD in Biological Sciences.

Qualifications: A successful candidate must possess a Master's degree at minimum in a discipline related to sleep medicine, health science, education, or other health related field. The RPSGT credential or eligibility to achieve this credential within 2 years of appointment is required, as is clinical experience in polysomnography, respiratory therapy, and/or neurodiagnostic technology. Evidence of teaching experience preferably at the undergraduate level or in a PSG, END, or RT associate degree program. Experience with distance education instruction is desired, as is additional professional certifications (such as RRT, R.EEG T., R.EP T., CNIM, R.NCS T., etc.), but are not required.

In this unique position, the successful candidate will be able to coordinate the UNC Charlotte NDSS offerings and student activities with those offered through UNC Chapel Hill, and, will teach in both the NDSS and BSRT programs.

Applications: Applications must be submitted electronically at www.jobs.uncc.edu (position # 003722) and must include 1) a cover letter that summarizes your approach to teaching and service, and how you may incorporate a commitment to diversity; 2) current curriculum vitae; and 3) contact information for at least three references (references will not be contacted until applicants become final candidates). Screening will begin November 13, 2017 and will continue until the position is filled. To inquire confidentially about this position, please contact: Dr. Reuben Howden, Search Committee Chair, at (704) 687-0861 or rhowden@uncc.edu

The College of Health and Human Services (CHHS) and the Department of Kinesiology (KNES) strongly support diversity among students and colleagues, and we are actively seeking applicants who can contribute to the University's Diversity Plan (<http://diversity.uncc.edu>).

As an EOE/AA employer and an ADVANCE Institution that strives to create an academic climate in which the dignity of all individuals is respected and maintained, the University of North Carolina at Charlotte encourages applications from all underrepresented groups. All finalists are subject to criminal background checks.
